available

KeyKeg: the most sustainable packaging for export business

With Bag-in-Keg™ and Double Wall™ Technology

NO LOSS OF FRESHNESS

Bag-in-Keg Technology™ with superior barrier; locks in beverage freshness, maintains high-quality flavour and maximises shelf life. Dispense with any type of gas or compressed air.

SAFETY FIRST

Protect your beverage with strong, safe and damage-resistant *Double-Wall Technology™* during filling, transport, handling and dispensing.

STABILITY, STACKABILITY AND HANDLING

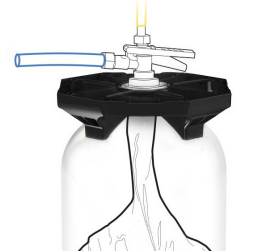

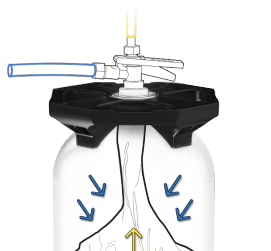

Move, transport and store your beverages effortlessly with lightweight, ergonomic grip ring & basecup. Patented system is designed for easy stacking, optimising floor space and safe loading.

UNIVERSAL FITTING

Fill and dispense with industry-compatible fittings A and K.

CIRCULAR BY DESIGN

Designed for circularity, empty KeyKegs can be collected and recycled into new KeyKegs.
