

How to find the Production Code

OneCircle, the manufacturer of the KeyKeg (10L, 20L, 30L and 1/6 BBL) and UniKeg (20L, 30L and 1/6 BBL) makes sure that each Keg is individually traceable by placing a production code on the finished products. This code indicates where and when the Keg was produced.

The production code on the Keg consists of two lines:

LWCxx YY MMM
DD hh mm ss

The production code represents the date and time in a 24 hours scale. xx represents the location where the Keg was fabricated:

- 01 → Netherlands
- 02 → USA
- 03 → Germany
- 04 → England
- 05 → Spain

WHERE YOU CAN FIND THE CODE ON THE KEG

At the Handling & Safety Instructions on the sleeve, above to the 2D code.

The Keg in the picture was created in Spain on the 6th of February 2020 at 15:06:50.
